

SPIRIT CANYON HERBALS

Clear2Win Respiratory Support

Feeding Herbs to Your Horse

Our powdered herbal blends can be fed by mixing with your horse's feed and adding a small amount of water or apple cider vinegar to bind it to the feed.

Alternatively, you can mix the dose with enough water to make about 60ml of tea and administer with a dosing syringe.

Feed herbs for 6 days a week, with one day of rest.

Clear2Win is an herbal formula that supports the respiratory system in horses with a wet cough. It contains herbs that have properties known to dry mucous, boost immunity, and help with allergies.

Clear2Win contains the following herbs (materia medica):

- Plantain:** vulnerary, alterative, astringent, expectorant, anti-inflammatory, emollient, demulcent
- Yarrow:** diaphoretic, analgesic, vasodilator, hemostatic, astringent, antispasmodic
- Elecampane:** expectorant, antimicrobial, hepatic, cholagogue, diaphoretic, astringent
- Dandelion:** hepatic, alterative, cholagogue, tonic
- Garlic:** antimicrobial, circulatory stimulant, mucolytic, vasodilator, alterative, expectorant
- Echinacea:** antimicrobial, alterative, immunostimulant, anti-inflammatory, vulnerary

Definitions:

- alterative - tending to alter favorably the course of an ailment
- analgesic - pain relief
- anti-inflammatory - reduces inflammation
- antimicrobial - an agent that kills microorganisms or stops their growth
- antispasmodic - suppresses muscle spasms
- astringent - causes contraction of body tissues
- cholagogue - promotes discharge of bile
- demulcent - relieves inflammation and irritation to mucous membranes by forming a soothing film
- diaphoretic - warming, increases perspiration
- emollient - softens or soothes the skin
- expectorant - promotes the secretion of sputum by the air passages, used especially to treat coughs
- hemostatic - causes bleeding to stop
- hepatic - strengthens or supports liver function
- immunostimulant - stimulates the immune system by inducing activation or increasing activity of any of its components
- mucolytic - thins mucous, making it easier to cough up
- tonic - substance that produces vigor or well-being
- vasodilator - widens or dilates blood vessels
- vulnerary - of use in the healing of wounds

This product has not been evaluated by the FDA and is not intended to treat, cure, or prevent any disease. For animal use only.

How Herbs Work

Our herbal products are hand crafted blends of traditional herbs, designed specifically to target the various systems in the body.

Herbs differ from pharmaceuticals in that herbs work to build up and strengthen an entire system, encouraging the body's natural healing process to occur. Herbs may give relief from symptoms, but the real value is in their power to promote wellness.

We don't advocate the use of herbs to the exclusion of pharmaceuticals as there is a place for both in the care of our animals. We strongly recommend that you consult your vet regarding the use of herbal products, especially when used in conjunction with pharmaceuticals.

Thank you for choosing SCH!

We are working hard to create products that improve lives, and we very much appreciate your support. We developed all of our products ourselves through a lengthy process of education, testing, and revision. Everything we sell is manufactured by us, on site. All of the herbs we use are carefully sourced to ensure the utmost in quality and efficacy. And, all of our products are completely natural and contain no additives or fillers.

Your feedback is invaluable to us. Please drop us a line and let us know how our products are working out for you, or if there is anything better we can do. We also very much appreciate your product reviews on our website.

Our Risk Free Guarantee

We are committed to what we do, and we absolutely believe in our products. We guarantee everything we sell 100% - if you are not completely satisfied, we will refund your money and/or work with you to create a custom solution to your problem.
