## X-Ponent Immune Support

### Feeding Herbs to Your Horse

Our powdered herbal blends can be fed by mixing with your horse's feed and adding a small amount of water or apple cider vinegar to bind it to the feed.

Alternatively, you can mix the dose with enough water to make about 60ml of tea and administer with a dosing syringe.

Feed herbs for 6 days a week, with one day of rest.

**X-Ponent is a blend of herbs with properties known to detoxify and boost immunity.**

X-Ponent should be used as a 10 day course at the change of each season and after periods of stress, hard use, travel, and changes in climate. X-Ponent should be started at the end of a big event, not before, as it might induce short term fatigue.

X-Ponent contains the following herbs (materia medica):

- Echinacea:** antiseptic, alterative, immunostimulant, immune enhancer, antimicrobial, anti-inflammatory, vulnerary
- Oregon Grape Root:** alterative, hepatic, anticatarrhal, cholagogue, liver tonic
- Astragalus:** immunomodulator, hematonc, cardiotoxic, hypotensive
- Licorice:** adaptogen, demulcent, expectorant, anti-inflammatory, antiulcerogenic

### **How Herbs Work**

Our herbal products are hand crafted blends of traditional herbs, designed specifically to target the various systems in the body.

Herbs differ from pharmaceuticals in that herbs work to build up and strengthen an entire system, encouraging the body's natural healing process to occur. Herbs may give relief from symptoms, but the real value is in their power to promote wellness.

We don't advocate the use of herbs to the exclusion of pharmaceuticals as there is a place for both in the care of our animals. We strongly recommend that you consult your vet regarding the use of herbal products, especially when used in conjunction with pharmaceuticals.

### **Thank you for choosing SCH!**
